5 Themes of Geography for Florida

By: Speedway
Relative: Florida is east of Mississippi and south of Georgia.

Absolute: 27 North 30 West.
Regions

Time Zone: Florida is in the Eastern Standard Time zone.

Area Codes: 305, 321, 352, 386, 407, 561, 727, 754, 772, 786, 813, 850, 863, 904, 941, and 954.
One landmark in Florida is Disney World. It was made after the popular person who invented Mickey Mouse (original name was Mortimer, Walt Disney) A landform is the Everglades. It is the largest tropical wilderness in the world. One of Florida’s traditions is the Citrus Festival. The Citrus Festival is a carnival that celebrates Florida’s top crops - citrus fruit. The climate in Florida is an average of 80°F for summer and an average of 54°F in the winter.
Tampa National Airport is a good place to travel. You can travel almost everywhere there. The overseas highway goes 218 miles across the ocean. Florida’s exports are oranges, snap beans, squash and tomatoes. The agriculture is sugar-cane and cattle.
Since they have a normal amount of hurricanes, they invented hurricane glass to protect their homes from damage. They built a causeway, a causeway is a raised road across land or water. They depend on sunscreen so they can enjoy the beach and not get baked alive!!! With the harsh climate that they have, they need sunscreen to tan but not burn.
We hope you liked our presentation, hope you learned a lot of stuff like...

1. The overseas highway goes 281 miles across the ocean.
2. They invented hurricane glass.
3. Mickey Mouse’s name was originally Mortimer.
Thank you for joining us on this adventure through California, Arizona, Texas, Louisiana, Mississippi and Florida. We hope you enjoyed the See The U.S.A project. We are sad this project has came to an end. We hope you will take adventures much like this one.
